Why BoundaryCare?

The most complete caregiver support system available today, available for iOS and Android. Providing peace of mind with devices people actually want to wear.

App-based solution: Choose your own device, and enjoy all it has to offer.

Features: Most complete feature set – to evolve with your needs over time.

Ease of use: Apple-quality interfaces for error-free handling.

Unparalleled alerts: Decide who should receive which alerts, when, and how.

Customizable reminders: From life-saving meds to everyday nudges.

Two thirds of users who expect BoundaryCare to help them keep loved ones at home estimate they will gain a year or more.
