

The wearable for fall detection & prevention

Independence and peace of mind

Specially adapted Apple Watch

- Apple quality & value
- Social status instead of stigma
- Compact (50% smaller and 39% lighter than competitors)

More than detection: prevention

- Gait monitoring (with iPhone)
- Monitoring of contributing factors, such as: heart rate, oxygen saturation, A-fib, sleep, and more.
- Trend analysis via web portal

Caregiver Apps

- Both iOS and Android
- Optional Web portal
- Instant alerts in case of hard falls
- Highly configurable

Personalizable

Watchband colors & clippable fobs

Pricing for consumers & providers
